

To Whom It May Concern,

For over the past two and a half years, I have used TheNewswire.ca as our timely disclosure provider and can personally attest to TNW's service, distribution and personal attention to detail.

Initially I was somewhat suspect of TNW's abilities and distribution based on their rates, thinking "there must be something wrong".

There isn't.

As TNW's senior management explained, they are not "cheap". Instead they believe in Fair Pricing, based on the fact that with modern technology, the old "per word / per page" model is an antiquated and unfair billing practice.

TNW has more than adequately serviced my clients, including Eastfield Resources, Lorraine Copper Corp. and Cariboo Rose Resources.

The service is truly 24 / 7, response times are immediate and any questions or concerns are addressed honestly and dealt with expediently.

I highly recommend TNW!

Sincerely,

Paul Way
